

DCRO OPEN DAY 2018

The **DCRO OPEN DAY 2018** will be held on **Saturday 12th May 2018** at the **DCRO base** at the Fire and Rescue Centre, Staden Lane off the A515 just outside Buxton (SK17 9RZ for Sat-Nav).

The Open Day is NOT a 'hard sell' DCRO recruiting event. It is an opportunity to see what DCRO does, play with some interesting kit, learn or refresh some skills which you may find useful underground and to meet and network with other local cavers. If after that you do feel interested in joining the team, there will be people there who can explain more about what DCRO membership entails and the benefits it can give you.

The Open Day starts at 0945 with a brew provided and during the day there will be a rotation of practical sessions to take part in;

- ***What is DCRO and what do we do?***
- ***Rigging for rescue.***
- ***Stretchers and stretcher handling.***
- ***First Aid / Casualty Care underground.***
- ***Surface and Underground Comms.***

There will be a break for lunch (cheese cobs and more brew are provided) and the day will finish around 3.30pm.

There is no charge for the Open Day and the refreshments and lunch are provided free.

If you are interested in attending the DCRO Open Day please email Katie Eavis the DCRO Training Officer at training@derbyshirecro.org.uk so we can ensure there are adequate refreshments.

Clothing: Bring outdoor clothing, helmet, lamp and your SRT kit.

Parking: Drive down Staden Lane and park on the road to the rear of the Fire Station where you will be met by someone from DCRO. Please park responsibly as this is an operational Fire and Rescue Centre.
